probable result. In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, backing cough will set in, and when you raise any thing it will be a thick and yellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have heetic ever, cold chills, night sweats, copious expectoration, and then great prestration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly consumption old its work, and burried you away. Friend! have you no cause to be alarmed? In the above sketch you may see as in a gloss, how every care of consumption progresses, with more or less rapidity, to a fatal ter-mination. Of all the thousands and millions whom this great Destroyer has gathered to the tomb, every single case began with a cold! If this had been attended to, all might have been well; bus, being neglected, under the fatal delusion that it would "wear itself off," if transferred its dondly action to the substance of the lunes, exciting there the formation of tubercles. Another, Trobsteco-20 Fine Vinginia Leaf; and another cold added fuel to the flame, until these tubercies began to soften and suppurate. leaving, by their ulceration, great cavities in the lungs. At this crisis, the disense is very difficul of cure, and oftentimes sets at defiance all human

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progrees, and will always make the patient more comfortable, and prolongs his life, and it is therefore worthy of a trial; but in its incipient or former periods. Consumption is as curable as any other disease, and DR. HALL'S BALSAM FOR THE LUNGS, if taken at this time, will cure it AS SURBLY AS IT IS TAKEN! This is strong latguage, but we can refer you to numberless living witnesses to prove that it is true! And therefore we samestly exhort every man, woman and child who has a cough, or is subject to colds, to keep the medicine by you in the house, and whenever you take cold, do not "let it alone" to work mis chief in your system, but cradiente it thoroughly and at once, by this powerfully healing compound and leave your lungs uninjured, to carry you in full vigor to a good old age! About a year since I was attacked with Lung Fever, which left my lungs much diseased; my cough was distressing attended with with pain in my left side. BRANT'S The Great COUGH REMEDY.

The Great COUGH REMEDY.

Many years of experience, and more than a Hundred Thousand Cures of Consumptive Compilants, have proved to the undoubted entification of all persons who have become acquainted with this sconder/ul remedy, that it is greately superfor, became it is sookflop and healing, and more certain to cure Consumption of the Lungs, than any other Remedy in the world. We know, however, that it is said by some that Consumption can not be cured. Be that the opinion of the many or the fow, we shall not attempt to argue with such, but this we will say, and do assert as a fact, which can be proved in thousands of cases, that this medicine has cured Coughs and disease which, before the cures were effected, were called real Consumption, and which were sitended with symptons that resembled, and were in all respects fife the symptoms of those who die, and when dead are said to have died with not fall disease Consumption. This Balaum has cured thousands of persons who were said to be hopelessly afflicted—who had hard, dry, raiwing Conghs—Prise in the Breast, Side, and Back—Difficulty of Breathing—Paralent Espectoration—Hetcle Force—Mydd-Eseatt—and wasting away of the Flesh and Blood. Persons lawing such complaints have been cured after it was said they could not live a week longer. This Medicine has cured some who were supposed to be in a dying starte, but, by the use of this remedy, they now live, and enjoy good health.

This Balsann is purely a vegetable compound. It is pleasant to take, and never does injury in any stage of disease or under any circumstances. For the Removal and Permanent Cure of all NERVOUS DISTASES, and of those Comparits which are sed by an imperced weakened or unhealthy commission of the NERVOUS SYSTEM

ingrease the disease, for they weaken the vital energies of the
already prostrated system; while under the strengthening
life-giving, vitalizing influence of Galvanism, as applied by
this beautiful and wonderful discovery, the exhausted patiest
and weakened sufferer is restored to former health, strength
elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists in the fact that they arrest and cure disease by our ward application, in place of the usual mode of drugging and phsicking the patient, till exhausted Nature sinks hepelessly under the infliction. under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

75,000 Persons meluding all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED. when all hope of relief had been given up, and every thing else been tried in vain! when all hope of relief had been given up, and every thing elac been tried in vain?

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bene of civilization, DYSPEPSIA, or any other Chrenic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach afford temperory retief, but which leave the pattern in a lower state, and with in jured faculities, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT—aske a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Esk around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence oach again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severs cases of DYSPEFSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO FRADICATE THE DISEASE OF YEARS.

About fourteen years since, in consequence of frequent exposure to the weather. In the discharge of my pastoral duties, I became suffert for a severe Chronic Rheamatism, which for year after year, caused me indescribable anguish. Farther: in the winter of 45 and 46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchits, which soon become so severe as to require an immediate suspension of my pastoral labors. My nervous system was now therotography prostrated, and as my Bronchitis became worse, se also did my Dyspersia and Rheumatic affection—thus exincing that these disorders were connected with each other Stough the medium of the Nervous System: etc., hing that I had tried for this purpose had completely fans At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELIT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To my great astronishment, in vivo days my Despensia had gone; in kiert days I was examined to resume my Farstona Labors; not have I since Ositits da since flavored on a coount of the Benderite since ositits of the experiment.
